

Product & Program GUIDE

Reliability - CMC is a chemical service organization. We consistently provide on-time deliveries, accurate invoicing, product availability, product quality, competitive pricing and technical assistance.

Flexibility - We take pride in our ability to offer distribution of commodity, proprietary and specialty chemicals, custom packaged (small bulk, drums, pails), and custom dry and liquid blending products to meet your specific needs.

Programs - CMC partners with you and our suppliers to create innovative solutions to the complex challenges of an increasingly competitive world. We provide all the services necessary to manage your chemical supply chain, from procurement, product management (inventory, on-site support, environmental) to compliance and use reporting. We also field a technical sales team experienced in your industry, to help optimize your manufacturing process.

Technical Service - Our sales staff along with our vendors and suppliers will provide on-going technical support from product development, analytical services, and process analysis. In addition to identifying new and innovative technologies, our vendor resources have the ability to create custom chemical solutions to meet your individual needs.
